We have grown from three founders to a firm of 12 partners, and over 50 staff.

KBH is a Pre-Approved Program Route (PPR) provider through CPA Alberta.

KBH Core Purpose – Helping people succeed

KBH Core Values – Service, Relationships, Integrity, Efficiency and Innovation

At KBH, our core purpose is Helping People Succeed. This is a philosophy that the firm tries to live by. At KBH, people are defined as our employees, our clients (owners, management, staff and others) and the community at large. The success of all three of these groups is important to us.

Employees - Success for our employees can take on many forms. Completion of specific training programs and exams is only one facet of success. As our employees grow and develop, they are given more challenging assignments. Handling new challenges is just another form of their success. We aim to do everything we can to assist our staff to become more successful.

Clients - Client success is typically measured in dollars but at KBH, success is much more than that. Success can mean meeting certain filing deadlines or making a better-informed decision because of the added insight our firm can provide. As advisors, success will mean the completion of an assignment whether that is assurance, financial, taxation, business valuation or management advisory services. KBH will also provide assistance with a transition plan and guidance throughout your experience with us.

Community - We have recognized that KBH is much more than just an accounting firm. We are a member of a thriving community and need to be active participants. Our participation in the community takes on many forms. KBH partners and employees are members of boards of directors for various organizations by participating in ongoing charity fundraisers and providing services. We understand that a successful community will provide benefits for all.
